MINING ASSN. STARTS YEAR'S PROGRAM

Nevada City Nugget Now Member Of United Press

With this issue the Nevada City Nugget becomes a member of the United Press Association, national news gathering and distributing organization. First dispatches carrying general state news, news of the activities of the State legislature, now in session, and special articles of interest to Nevada County tax payers and mining interests, will be found in this issue of the Nugget.

It is the purpose of the Nugget management to carry in its columns news of interest to each one of its readers. In subscribing for the United Press Service a long step toward giving the Nugget universal reader interest has been taken.

NEVADA CITY HI WALLOPS GRASS VALLEY 32 TO 9

For the first time since 1928, the Nevada City high school basketball team, class A, gave the Grass Valley high school basketball team a defeat. And what a defeat! It was 32 to 9. When the local team breaks the ice, they believe in breaking it plenty. The game was played Friday night in the Redmens' Hall in this city and local supporters went home feeling that perhaps the A team has a chance in the Sierra Foothill League after all.

The B team however was more of a disappointment than ever. They lost to the Grass Valley B team in the preliminary by a score of 8 to 36. The Grass Valley B team is a fast and clever aggregation; they very likely could take the measure of their big brothers on the A team judging from the way they worked the ball into the hole Friday night.

Because of the sickness of both Oates and Schiffner, Casci was moved from his regular standing guard position on the A team to center and Ralph Pierce was moved from center to a forward berth. The combination proved successful and Casci surprised everyone by copping high point honors with a total of 13 points besides getting the tip. The big guard is not ordinarily what would be termed a clever shot and all last week in practice he was missing them with monotonous regularity. Therefore the surprise when the big boy arose to the occasion as the offensive star.

Buzz Chapman at forward displayed the same fire as he did against Lincoln a week ago when he went hog wild and ran up 15 points. He teamed very nicely with Pierce who is always dependable and with the aid of Wasley, the offensive ability of the team was all that it should have been.

Pierce does not quite feel at home playing forward, as he has never played there heretofore. At center he was always the offensive spark and there is no reason why he should not be even more effective as a forward. His size, speed and ball handling ability make him adaptable to the position.

Most of the scoring plays were worked into the hole for a crip shot. These plays were so effectively that very few long shots were attempted.

The defensive strength of the new line up was most gratifying to Coach Bev Barron. Grass Valley was allowed but two field goals in the entire game, one in each half. Cassatari making the first one and Ritts the last. The boys had their opponents bottled up to a fair-ye-well.

These last two games have certainly put the Nevada City A team in the running. A week ago they dumped the touted Lincoln team and now the slaughter of Grass Valley puts them nito second place in the league. Placer high, the only team to win from the locals, is in first place with no losses. Other A games last Friday ended with Placer winning from Folsom, 35 to 16 and Lincoln winning from Roseville

SOLONS SEEK TO EQUALIZE TAX ASSESSMENTS

By MELVIN LORD

SACRAMENTO, Jan. 15 (UP) Continuing in its "role" of a fact finding body, the California state-senate i sout to determine whether county taxes cannot be equalized in some way as well as state levies.

The movement was inaugugrated in the upper house by Senator Arthur H. Breed, Oakland, with the introduction of a series of three resolutions dealing with county fiscal problems.

One of these resolutions asks the state tax research bureau to make a report on the assessment of property by the various county assessors and make comparisons between the actual market value and the assessed value.

Such a report already has been submitted to the legislature by the bureau, showing, that in Nevada county for instance, the assessed value of 25 pieces of property within corporate limits was 38.36 per cent of the actual or market value.

The bureau report showed an evident need of equalization of assessment rations inasmuch as the range between counties is wide.

According to the report, the "inside" assessment rate ranges from a low of 21.65 pe rcent of the actual value of property in Shasta county to a high of 66.118 per cent in Stanislaus county. The average for the state as revealed by a survey of 2,591 parcels of property was 44.77 per cent.

Another proposition upon which the senate has askked information concerns a comparison between incomes of agricultural and non-agricultural property and the resulting effect on axes levied thereon.

Indicating the legislature may also apply economy measures to the county salaries, the senate has asked for a report on all such salaries over which the state lawmakers have control.

FORESTERS LODGE PLAYS I. O. O. F. HORSE SHOES

The Foresters Lodge of this city has challenged the Odd Fellows Lodge to a game of indoor horse shoes tonight immediately following the Foresters' meeting in their hall on Commercial street of this city.

The Odd Fellows have accepted the challenge and will be on hand ready to play at 8:15, confident of victory with such stars as Pascoe, Carlson, Crabbe and others. The indoor game is played with rubber horse shoes and the winner must take two out of three games in order to win.

Last year a great deal of interest was displayed in the games and almost every local lodge had its horse shoe team. This year interest has waned but followers of the sport hope to revive the interest and tonight will be a good criterion.

LEGIONNAIRE IS BORNE TO ETERNAL REST

The late Harold D. Chapman was borne to eternal rest. The services were conducted by American Legion officers of which organization the deceased was a member. A firing squad and a trumpeter sounding taps completed the impressive military ritual. Interment in the Pine Grove cemetery was under direction of the Holmes Funeral Home.

Miss Loretta Mugford and Elmer Chenowith of Sacramento are visiting Clyde Mugford o fthis city.

Mr. and Mrs. Ed Clunes, of Brighton, Sacramento, attended the funeral of the late George W. Jones, who was a step son

WALKING STILL GOOD, CITY CLERK FINDS

In the old Pioneer days, before the advent of the automobile and good roads, our forefathers didn't think anything of walking a few miles, either before or after breakfast.

Nowadays we are getting so much out of the habit of walking that even the children think they should ride to school.

Not so however, with our valliant city clerk George Calanan. Believe it or not, but the other night—to be exact—at 2 o'clock a. m. George arrived at Colfax from Reno.

Now, everybody knows that a devoted husband and home man George really is, and not only that ,he is embued with a spirit of frugality ,made increasingly acute on account of the present depressed condition of the country. No, Mr. Calanan is not Scotch.

So, after alighting from the train George got to thinking about the folly of paying for a whole night's lodging when the night was already more than half gone and with true homing impulse he decided to walk to Nevada City.

Shouldering his rather ample valise he took to the highway and he walked and walked and walked, through Chicago Park, past Peardale, he trudged all through the wee small hours of the chill frosty morning, while the rest of humanity was deep in slumber.

Covering the sixteen miles in about four and a half hours he arrived at home in time to light the fire for breakfast and hear Mrs. Calanan proudly exclaim "Some man, Some man."

NEVADA COUNTY GOVERNMENT COST $420,331

BY HOMER L. ROBERTS

SACRAMENTO, Cal., Jan. 15 (UP) The total cost of government in Nevada County was $420,331 last year of which $32,602 represented the cost of crime.

This was disclosed in the report of the crime problem advisory committee, headed by Rolland A. Vandergrift, state director of finance, to the state legislature.

The 58 couties of California last year paid out a total of $291,299,961 for operating their county governments, the report showed, while the cost of crime for the entire state totaled $12,499,573.

Alpine Crime Lowest

Alpine county, smallest in the state in population, also had the smallest cost of crime, or $1,507. Los Angeles county had the largest, or $4,225,174. San Francisco, city and county combined, had a total cost of $3,9190,022.

If the state is ever to solve its crime problem it must begin with the subject of juvenile delinquency, the committee reported.

"The importance of this fact is further exemplified by the realization that under our present system, efforts to rehabilitate adult criminal offenders have not had the desired results," the report stated.

Delinquents, Big Problem

"Treatment of the delinquent child in his own home, a foster home or an institution should be based on thorough undedstanding of his needs and the ways in which his environment has failed to meet them.

"It has been found the policy in some counties to use the detention home for permanent institutional care of delinquent children. This practice should be discouraged. The detention home should be used for temporary custody, pending study, investigation and disposition."

Other recommendations of the committee were: :

Uniformity of statewise standards in probation work,, and the training and certification of probation officers.

State subsidy to counties of probation work conditioned upon counties meeting state required standards.

NEW EDITOR OF NUGGET ON JOB

Through the purchase of R. R. Anderson's interest, Harley M. Leete, formerly editor and partner in the tri-weekly Lodi News, becomes the editor and manager of the Nevada City Nugget. Under the new arrangement C. B. Anderson retains his interest in the Nugget and will have charge of the printing and mechanical department.

R. R. Anderson has sold his interest in the Nugget because of failing health and under his doctor's orders will not resume active work in the printing business for some months.

Leete has recently traveled over the state and declares that Nevada county shows the least effect of the generel depression of any section in California.

The new regime on the Nugget goes into effect today.

Prior to his long experience as editor of the Lodi News, Leete was a member of the staff of the San Francisco Examiner, the San Francisco Call, and the San Francisco Bulletin. He entered the newspaper profession as sports editor of the Los Angeles Herald.

Biggest Crowd Of Year At Ski Club Yesterday

Yesterday saw the biggest and one o fthe most enthusiastic crowds o fthis winter season at the Nevada City-Grass Valley Ski Club course. There were many visitors from other cities and from one club in Marysville came a crowd of 200 enthusiasticts. The Marysville people brought their own lunch and cooked a huge pot of beans in the open.

Last night at the course 5 inches of snow fell, and at the Summit 8 inches.

JEWELS VALUED AT $2,000 BOOTY OF BURGLARS

Tim O'Hanrahan, proprietor of the Sierra Tavern at Truckee, last Friday reported to Sheriff George R. Carter, that of $2,000 worth of jewelry belonging to his wife early Thursday morning, Hanrahan stated that he had risen early to build a fire in the dining room, leaving his bedroom unlocked and later returned to bed. Neither himself nor his wife were disturbed by the burglar, who made a clean sweep of all valuables in the room, except a piece of gold bridge work with teeth attached and thirty five cents in change.

Among the pieces of jewelry that were taken were an engagement ring with a one carat diamond mounted with smaller diamonds, a platinum wedding ring set with diamonds, a gold Chinese jade ring, a gold ring with an ivory setting, a gold wrist watch, and diamond earrings.

The burglars were promptly caught in Reno and sentenced to imprisonment. They were wanted there for the same offense, and this county relinquished jurisdiction to Nevada.

JOHN CHAMPION CALLED TO REST

Funeral services were held yesterday afternoon for the late John R. Champion, who passed away last week. The Rev. O. H. Fuller officiated. The Odd Fellows of which order the deceased was a member, conducted the services at the grave in Elm Ridge. The pall bearers were Al. Abrahams Sr., Alec Truscott, Archie Cornish, Richard Ingram, Asa Keast, and B. F. Berryman. W. R. Jefford & Son were in charge of the obsequies.

BAD COYOTE

FLOURNEY (UP) At last the ranchers of this district are taking their rest regurlarly. Trappers finally caught "Old Ranger" sheep-eating coyote who had outsmarted them for a decade.

President Star to Visit All California Chapters

The following announcement of the officers and directors of the Mining Association of California has been made. This announcement is in accordance with the action taken at the meeting of the Association held in Grass Valley January 7.

OFFICERS

George W. Starr, President; F. A. Crampton, Vice President and Executive Secretary; P. W. Racey, Vice President; Charles Segerstrom, Vice President; Charles L. Gilmore, Secretary-Treasurer.

EXECUTIVE COMMITTEE

George W. Starr; James D. Stewart; Charles L. Gilmore; Arthur Foote; W. F. Gormley.

EXECUTIVE ADVISORY COMMITTEE

George W. Starr, F. A. Crampton, H. R. Plate, P. W. Racey, Arthur Foote, M. J. Brock, Charles L. Gilmore.

LEGAL COMMITTEE

Rex B. Goodcell, Charles L. Gilmore.

DIRECTORS

George W. Starr, Grass Valley; F. A. Crampton, Los Angeles; P. W. Racey, Jackson; Charles Segerstrom, Sonora; Charles L. Gilmore, Sacramento; James D .Stewart, Auburn; Arthur Foote, Grass Valley; W. F. Gormley, Sacramento; Rex B. Goodcell, Los Angeles; H. R. Plate, Grass Valley; M. J. Brock, Grass Valley; J. C. Kemp Van Ee, San Francisco; F. J. Beheneman, San Francisco; R. L. Riggs, Los Angeles; Julian Boyd, Los Angeles; Sidney Norman, Los Angles; Fred W. Bunyan, Secramento; R. L. Bullard, San Francisco; Arthur Hoge, Nevada City; George W. Gronwoldt, Redding; O. A. McCraney, Nevada City; C. B. Tibbetts, Los Angeles; L. Lichtenberger, Los Angeles; W. W. Waggonner, Nevada City; Ralph Arnold, Los Angeles; John Herman, Los Angeles; Frank Sizer, San Francisco.

Directors have also been named for Randsburg, San Bernardino, San Diego, Redlands, Merced, Angels Camp, Modesto and San Andreas, but acceptance is not yet received, the names will be announced at a later date.

MEMBERSHIP REQUIREMENTS

Membership in the Mining Association of California will be in the central organization and membership cards will be mailed to all members upon receipt of their fees or dues. The chapters will retain their identity and function as in the past but members of chapters must first be members of the central organization. This slight, though important change, has been made nessary in order that the programs outlined for the organization shall meet with success. Each chapter will be a strong cooperating unit working in conjunction with the central organization for the benefit of the mining industry and the association.

Each chapter will shortly be visited by the President Starr, and Secretary Crampton, for the purpose of making personal contact with the requirements of each district and further, in order to acquaint the chapters with the phases of the present plans for the organization. This is a splendid move and will go a long way in cementing the work of the Association .

COMPENSATION INSURANCE

Announcement has been made that members who qualify with the Association can secure their Workmens Insurance through the Association with a company operating for the benefit of the mining industry. The company is essentially a miners mutual, is established and doing business. Through this insurance each member receives mutual benefits and stabilized dividend and by a cooperative plan heretofore not available to the mine operator it is anticipated that the carrying of insurance under this plan will result in a reduction of the mine insurance rates. Already many members of the Association are carrying policies under this plan.

In connection with the insurance programs, the Association has completed arrangements for a safety and first aid programs under a mining engineer with many years experience.

The Association has a complete legislative program which it is now endeavoring to carry to successful completion. In this regard, however, it must not be felt that complete success will be met in the present lgislative session. Success only comes after a long fight and a successful fight can be made only with complete co-operation through financial support and membership. The failure of the mining industry in the past have been due to a lack of organization, the present Association assures a strong organization under active an dexperienced leadership.

SEAWELL BACKS NEW ROAD BILL IN LEGISLATURE

SACRAMENTO, Jan. 15—(UP)—Supervisors of Nevada county would be relieved of direct control of the road building in their districts under provisions of a bill now before the legislature.

Centralization of work in the office of a "county road superintendent" and abolition of the office of county engineer is asked in the measure introduced by Senator Jerrold L. Seawell, Roseville.

Seawell believes under such a plan the districts of a county would share more equally in improvements and that a considerable saving would be made in avoiding duplication of expensive equipment.

"Under the present system each district has its own equipment," Seawell said. "During a great many months this equipment lies idle. There is no reason why one set should not be available to all the county for continual use.

"Centralization o froad work under a county road superintendent would place all equipment under one head, would afford savings in purchase of materials and would result in a more equal distribution of work throughout the districts."

The bill provides the superintendent be appointed for four years by the supervisors. He must be a civil engineer of five years experience.

A monthly budget of contemplated expenditures would be approved by the supervisors and a yearly report of work filed with the state highway engineer.

In as much as a road superintendent would duplicate the duties of a county engineer provision is made in the bill to abolish that office. Seawell said.

A similar measure has the endorsement of the state chamber of commerce, it was pointed out.

AIRPLANE FLIES BLIND AT NIGHT OVER CITY

About 8 o'clock last night citizens of Nevada City and Grass Valley saw an aeroplane flying aimlessly around with all lights out. The plane seemed to be lost and grouping around for its bearings.

Sheriff George Carter, his attention called to the lost plane, phoned to airports at both Reno and Sacramento. Both cities reported that no planes were missing and that all planes had stayed down because of the threatening weather conditions.

At 10 o'clock last night the Nevada City-Grass Valley Ski Club reported that the plane was flying over the course and was last seen going east towards Deer Creek.

Sheriff Carter's theory is that it may have been a mail plane that had gotten above the clouds and was flying low in order to regain its bearings.

Mt. Shasta—Mr. Shasta Pine Mfg. Company installing new machines.

GOLDEN GATE BRIDGE

A crew of 75 men are engaged in the preliminary work of constructing the great span, over a mile long, which is to bridge the Golden Gate. For approximately five years this great enterprise will be building to forge the link between the northern coast counties and San Francisco and the south land. In a larger sense, this will be the link in the great highway that connects Canada and Alaska with Chili and the far lands of Patagonia that border on the straits of Magellan at Cape Horn. Year by year the highway that runs from British Columbia into Washington, Oregon, California, Mexico, the Central American states, thence across Panama into the western republics of South America is being completed. Our grand children, if automobiles are used in their day, may make the grand tour from Nome to Valparaiso well inside of month's motoring. The Golden Gate bridge is one bit of the road now in the making.

THE EDITORIAL CIRCUIT RIDER

The "Economy" message of Governor Rolph hasn't produced any noticeable outbursts of optimism from many California editors, who believe his program is slated for rough treatment by the 1933 legislature.

If new taxes are to be avoided, however, in the opinion of other observers, the governor's recommendations must be carried out.

"That the governor will have sharp brushes touching many of his recommendations there is already ample evidence," said the Hanford Daily Sentinel. "The gas tax diversion finds very few advocates. So does the proposed old age fund cut. No less strenous will the fight be against the reduction of school apportionment."

Stating there has been too much waste and duplications in state government operation, the Sacramento Union declares:

"The governor may be proud of the fiscal administration of the state during the past two years, but he is sadly in the minority. The great mass of the taxpayers believe that there should be improvement and they demand that improvement now."

"He failed to mention elimination of some of the high-salaried jobs he created," said the San Rafael Independent. "There was nothing in his message that would hurt a single political appointee. Taken as a whole his message advocates that the poor and the sick be made to suffer so that his job-holding cohorts and political friends might be spared."

On the contrary, the Santa Barbara News Press believes "Governor Rolph must be supported in his campaign for economy, either by acting on his recommendations or by adopting even more efficient measures if they can be devised. The alternative, as pointed out by the governor, is the imposition of income, sales, or ad valorem taxes."

The proposal to pay for old highway bonds through diversion of gasoline tax funds aroused much editorial criticism, the Bakersfield Californian commenting:

"That the gasoline taxpayer is unalterably opposed to such diversion of funds admits of no argument. He knows that it represents not only the beginning in California of such raids upon highway finances but that it also forecasts new and more burdensome raids on his pocketbook in the form of higher gas taxation. It is idle to suppose that once having tapped the fountain of highway revenues, the raiders will stop there."

"Before this legislature takes a chance on diverting the gas tax to other purposes,' said the Alameda Times-Star, "it should recall that state proposition No. 4 was voted down more than two to one in November. That means hands off."

Taking a different view, the Pittsburg Post Dispatch declares:

"The idea is just, sound, sensible business procedure, such as would be applied in the conduct of any major private industry, and would mean that the general fund would be relieved of some $8,000,000 each biennium. Under present conditions, with the question of balancing the state budget a most pressing problem, the plan is even more than a sound business idea—it is a life-saver."

THE PAY STREAK

By H. M. L.

Curious things happen in the small world of insects. A few years ago scientists of the University of California introduced a species of lady bird beetles to fight citrus mealy bugs. The lady birds ate them—for a while. Then the Argentine ants which tend the mealy bugs like cows, regularly milk them and introduce new colonies of them wherever conditions are favorable launched an attack on the lady birds. Whenever a lady bird lighted, preparatory to feasting on mealy bugs, the ants rushed in and before the lady birds could close their hard wing covers, the ants snipped them off at the joints. Now the scientists have found a more formidable foe of the mealy bug. It is a small wasp that lays an egg in every egg of the mealy bug and the wasp larvae, hatching first, eats the mealy bug egg content. The Argentine ants have not met that challenge yet.

Traveled over to Bloomfield the other day. Road good, little snow, but with one or two spots that need chains for safety. Could not help reflecting on the effect of legislation as we drew into Bloomfield. There are the greatest gold gravel deposits in this county. All about us is a world crying for gold. Laws passed year ago prevent the gold from being taken out by hydraulics. Some chap one of these days will invent a mountain dredger that will tackle the job and win.

We have had two weeks of legislative activity and looking at the result, by and large, there seems to be very little in it that alleviates conditions or helps anybody. And when we turn to Congressional news we read of a fillibuster in the Senate and not much accomplished that's worth while. What this country has needed for a long time is leaders, real men that command the confidence of their fellow men.

LOCAL CUB SCOUTS HOLD MEETING HERE SATURDAY

Last Saturday afternoon the Nevada City Cug Scouts held their regular weekly meeting at the Foresters Hall with plenty of pep. The boys have repeatedly asked to be permitted to play basketball, so a ball was produced and after several preliminary plays were worked out on the hall floor, all hands repaired to the Washington Grammar School grounds for a workout.

No sooner had the Cubs started to warm up than it started to rain, spoiling a contemplated scrimmage. Undaunted, all marched back to the Hall and there practised passing and dribbling for a short period. Some of the Cubs show a natural basketball tendancy, which, if encouraged at this time, will be of great aid to their athletic ability later on.

If the much discussed Redmen's Hall is taken over by the city, it would be an ideal place for Cub Scout meetings and would of course permit the boys to learn basketball on a real court.

After the basketball practice Saturday, other games and exercises were indulged in for a period and after going through some special scout work, the meeting was adjourned.

A few of the boys have not been showing up at the meetings regularly. Each meeting missed puts them back just so much further in the scout work.. There are nineteen boys signed up as Cub Scouts and several more are seeking admission. Scouts on hand for the meeting Saturday were: Maurice Chatfield, Leslie (Babe) Santineill, Norman Kopp, Max Bandy, Arthur Willoughby, G. Perry, Billy Chatfield, Leonard Bolton, Elton (Bud) Tobiassen, Merle Dow and Richard (Dick) Keene.

Four other boys attended the meeting but are not as yet full fledged scouts.

All scouts who have been lax in attendance are urged to be present for the meeting this coming Saturday afternoon at 2 o'clock, regular place.

BANNER MT. POST CLOSES CHARTER

V. F. W. Banner Mountain Auxiliary No. 2655 met for its regular meeting, Thursday evening at the Oddfellows Hall. Important business was considered, the most important being that of the Closing of the Charter of the Post on Saturday night, January 14th, in the Odd Fellows Hall. The ladies of the Auxiliary accepted an invitation of the Post to be present and bring refreshments. All members and their wives urged to be present. The date of meeting was also changed to the 2nd and 3rd. Thursdays of each month.

MUST HAVE CHAINS

W. J. Kervin, of the Nugget's mechanical staff, with his mother, Mrs. A. E. Kervin, yesterday motored to Reno to visit friends. He reports a very strict enforcement of the traffic rules regarding chains for all motor cars over that route. Highway patrolmen stop all vehicles and insist on the chains. Any driver without them is turned back.

INCENDIARY TURKEY

GUSTINE (UP) Turkey prices are the lowest in years, but Mrs. Manuel L. Matos thinks the birds come very high. Her turkey caught fire and then burned part of the house.

GAS TAX RAID MAY HIT NON-MOTOR GAS

Official suggestions for abolishing the present refunds of gasoline taxes to farmers and other purchasers of motor fuel for purposes not involving street or highway travel are being made. The California State Automobile Association points out that such suggestions are further evidence of a broad attempt to change the entire status of the gasoline tax and divert millions of dollars from the highway fund to the state general fund.

The proposed abolition of refunds, which amount to more than $4,000,000, a year, gives the farmers and other non-highway users of gasoline a common cause with the motoring public in fighting to preserve the gasoline tax as a special tax exclusively for highway maintenance and construction, it was declared by Percy E. Towne, member of the Legislative Committee of the Automobile Association. Attempts to divert approximately $17,000,000 in gasoline tax money from the highway fund to the general fund are being vigorously opposed by the motorists' organization.

LUKENS' CUSTOM MILL HAS NEW MANAGEMENT

An operator and developer of Nevada and Sierra county mines for a number of years, Lester O. Wiseman has gone to the Ophir mining district with Thomas G. Curnow to take charge of Earl Lukens' custom mill west of Auburn in Placer county. Curnow was chief millman at the Brush Creek mine in Sierra county for a long period of time.

FIND GOLD

Old prospector perfects sure method of locating gold and silver. Two years tests under every condition, both on top and underneath the ground has absolutely proven the efficacy of these detectors in every case. Old prospector says, "These will locate gold for you in 10 minutes where otherwise it might take a year without them. With so many prospecting these days, it pays to have these extra eyes that see underneath rocks and rivers and make the biggest finds. Hundreds of thousands of dollars in gold is available to ambitious miners who go after it intelligently and equipped with these gold finders." You can't go wrong by using a prospector's invention and if you don't like it we will refund your money. Send $1.50 for small size or $3 for the standard size and illustrated booklet.

Again Being Universally Used

DOCTOR LAUDS HERBS, DRUGS

Drugs and simple remedies handed down for generations and later discarded are now proving to be of great value to the medical profession.

This was revealed by Dr. Linn John Boyd, head of the department of pharmacology and homeopathy of the New York Homeopathy Medical College. Dr. Boyd came from New York to attend the sessions of the American College of Physicians, of which he is a fellow.

"We can observe certain results in the use of animals," Boyd said. "But the animals cannot tell their feelings. For th efiner shades in results we need the human."

In these lesser known and discarded drugs, he pointed out ,modern medical science is finding great value. HERBS USED BY THE CHINESE FOR CENTURIES AND THEN DISCARDED, TODAY ARE AGAIN BEING UNIVERSALLY USED.

Dedicated to the Home Lovers of Nevada County

Oft' when in fragrant gardens
The roses are tossed by the storm,
Their golden hearts are longing
For the sunlight bright and warm.

And after on a sun drenched mesa
A flower like a crimson stain,
Lifts its face to the cloudless sky
And pleads for the rushing rain.

The spirit of discontentment
In flower, and bird, and tree,
Which comes like a brooding shadow
When we wander to you and to me.

The skies may be gray above us,
Or fair and serenely blue,
But oh, for our own green meadows
With soft winds wandering thru.

A glimpse of our own Sierras
Fretting the moonlit sky,
The sound of a wild bird's carol
And our river flowing by.

And oh, for one vine-wreathed cottage
Aglow in the sunset light,
Or sending a gleaming welcome
To us thru the dusky night!

Beauties of earth that allure us,
Glories of Egypt and Rome,
But in our hearts forever
A dream, and its name is—HOME.

A. MERRIAM CONNER.

NOT AFRAID OF SHERIFF

STOCKTON-(UP)-With no respect for the sheriff's office in the room below, a burglar stole $18 from a desk in the San Joaquin county clerk's office.

TOO MUCH SLEEP

LOS ANGELES -(UP)- For 12 years she was made to take naps and go to bed at 9 p. m., Mrs. C. J. Swartout charged in her divorce complaint. She got the degree.

ALLEGHANY MAN TELLS STORY OF BIG NUGGET IN 16 TO 1

T. J. Feagans, veteran miner and mine owner of Alleghany, recountin old timies to Christian Anderson, told of one of the pleasant surprises, a dynamite shot revealed i nthe heart of a tunnel in the Sixteen to One mine in its hey day. Feagans, first on the scene after the shot, beheld a solid piece of quartz and gold weighing 164 pounds. Later on the chunk assayed $27,000. Some nugget!

This section, Feagans declared is the most staple mining section in the state, if not in the world. He declares, however, that this is no longer any place for wild catters. It requires real mining men with experience in finding and handling the ores of this section, to make a success of mining hereabouts. Good business management, he states, is as necessary as mining ability in developing new properties, or resuming operations in old ones.

LOCAL MAN ACTIVE IN NEVADA STATE AFFAIRS

Early this week an article published in the Reno Evenig Gazette tells of the activity of a Nevada City mining man in the state of Nevada. L. E. Stein is the man and his efforts to reduce shipping rates on ores are meeting with the approval of many Nevada mining men.

The article is headed by "Bring Prosperity With Lower Rates Stein Proposes" and "Will Ask Rail Officials To Make Flat Rate Of $50 Per Carload". Extracts from the article read: " 'Reduce freight rates on ores to Salt Lake and coast smelters and thereby create prosperity in the state.' That is the proposition being offered by L. E. Stein, who is preparing petitions to railway officials which, he says, will be signed by many of the most influencial men of Nevada, and which asks them to make a flat rate on fifty ton shipments, regardless of value, of fifty dollars a car.

"If the petition were granted, Mr. Stein says that the smelters would follow with reductions that will be of great benifit to the industry.

"There is an almost unlimited tonnage of ore in this state that could be mined and shipped under such conditions' he said 'and in many cases ten dollar ore could be sent to market at a good profit to the producer.

'Nevada's cheif resource at the present time is the ores in her mines; it is about the only product that she has to sell that is in demand and here is the only hope for prosperity in the near future, but the greater part of the tonnage cannot be handled profitably unless great reductions are granted on freight and treatment charges.' "

UNFORTUNATE CAT

LOS ANGELES-(UP)- Charles Yamahoski used the vacuum cleaner to remove fleas, but his cat's tail caught in the fan. Now he wants to know how to restore fur to the animal's tail .

Lompoc—Work to start shortly on construction of Santa Maria Gas Companys office building.

LOCAL HAPPENINGS

James Erway is suffering from a severe cold.

Mr. and Mrs. A. G. Hitchen were guests of their uncle, Mr. George Hitchens last week.

Mrs. W. Triwine of Grass Valley was the guest of Mr. and Mrs. Leonard Truscott Friday evening.

Mr. and Mrs. Frank Chidotti of this city motored to Colfax to visit friends yesterday.

Mrs. Ann Larson, who has been in Reno, is expected to spend the week-end at her home in Nevada City.

Mrs. E. W. Smith, of this city, will spend several weeks in a visit with her children in Martinez, also Sacramento and Oakland.

Mr. Leonard Truscott who sustained an injury to one of his eyes recently was able to resume his work last Monday.

Mrs. Laura Hardenbrook, of Grass Valley was in Nevada City Saturday on business connected with her mining interests in Sweetland.

Mrs. M. Gibbons, proprietor of the Betty Jean Shop in this city spent Thursday in this city. She is a sister of Mrs. E. H. Tennant.

William Julian went to Truckee yesterday. He reports a cold miserable day with many flurries of snow.

Clyde Mugford took a walk around the old Mountaineer mine yesterday and saw five men working on top.

Mrs. E. R. McMath of San Francisco spent Saturday with her daughter, Mrs. Eddie Trimmer, who is slowly recovering from the flu.

Mrs. Hazel Williams and son, who have spent sometime in Sacramento are now visiting her mother Mrs. Loren Williams of this city.

Sheriff George R. Carter was a recent visitor in Truckee, having been called there on official business.

Mrs. Arthur Swanson, after two months in St. Mary's Hospital in San Francisco with double pneumonia, came to Nevada City for a short visit with her husband Saturday.

Miss Loretta Mugford and Elmer Chenoweth of Sacramento, were week end guests of the Clyde Mugford family o fthis city. Miss Mugford is Clyde's sister.

Mr. and Mrs. William Lee were guests of Mrs. V. A. Neaves and Miss Ida Orey for a couple of days last week. Mr. Lee is proprietor of the Grand Cafe in Reno and expects to locate in Grass Valley.

Mr. and Mrs. Sinnock of Red Bluff and Mr. and Mrs. H. E. Katzer of Gridley are visiting Mrs. T. Oliver of this city. Mrs. Oliver, the mother of Mrs. Sinnock and Mrs. Katzer, has been seriously ill for the past three weeks.

Mr. and Mrs. William Fenton, owners of the Tom and Jerry hydraulic mine in the Quaker Hill mining district, left this afternoon for Sacramento on the 3:30 bus. Mr. Fenton will be placed under the care of Dr. Leo P. Bell, Sacramento physician and surgeon for an undetermed period o ftime.

INVENTION LINKS WORDLY AND ASTRAL PLANES, IS CLAIM

Mrs. Laura M. Hardenbrook, formerly of Nevada City, has invented a microrayscope which she states links wordly and astral planes with the universal plane by tuning in on the latter wherein lay all the cosmic laws.

She declares that her invention opens an entirely new field for the scientific world in that there now is now available an energy scientists have known to exist, but have hitherto been unable to see or to use. She terms the new energy "omnipotent."

Mrs. Hardenbrook intends to leave soon for San Francisco and Southern California to attend to the manufacturing end of the auroscope which is used for therapeutic purposes. She states that several of the profession are interested in this device. The aurascope was an earlier invention of Mrs. Hardenbrook.

For the past week Russel Haddy has been back at his mine in Forest. Work is continuing on a promising looking ledge.

Continued from page one

NEVADA CITY HIGH WALLOPS GRASS VALLEY

33 to 24. Placer is the team to beat and if Nevada City keeps up the pace they have set, they have a fair chance to do it on the Auburn court when the return game is played.

The B team presents quite a problem to Coach Barron. Nevada City in late years has had a strong B team, especially so last year. This year, with a group of clever ball tossers, the right combination just cannot be found. Just the opposite to the A team, Friday's loss was the frst one to Grass Valley in a B game since 1928.

Sharp, who was the whole show against Lincoln a week ago, was not nearly as effective and was finally thrown out on personal fouls as was Bob Tamblyn. Shaffi was again out in uniform, but whether or not it was his lack of practice of late, he wa snot as effective scorer as he has been in past games. None of the boys could snap out of it and Barron's old trouble with guards was more pronounced than ever.

Toccalini, regular forward on the B team, may be shifted up to the A team for the rest of the season. He was off to a slow start because of two fooball ankles, but his addition to the A squad would help round out the team as it is woefully weak on reserve strength. If Toccalini plays once on the A team he will not be allowed to return to the B team, so the decision must be weighed carefully. In as much as the B team is hopelessly out of the race and the A team has a fighting chance to win the league title, the move is regarded as a wise one.

Coach Barron was well pleased with the A team victory. He expects Schiffner to be out for practice this afternoon as he is over his attack of flu. It is not known when Oates' boils will permit his to rejoin the squard. Friday night of this week the two teams will tangle with the Roseville teams at the Redmens' Hall in this city. It looks like the B team is in for another tough evening unless they snap out of it. Roseville won from the Lincoln B team last Friday by a score of 17 to 13, and Lincoln has a very good B team. Another B team game ended last Friday with Placer winning 29 to 19 over Folsom.

FUNERAL SERVICES FOR GEORGE W. JONES

Funeral services were held yesterday for the late George W. Jones under direction of the Holmes Funeral Home. The Rev. H. H. Buckner officiated. Interment was in the Pine Grove cemetery. Pall bearers were William Borlace, R. McLeod, H. Sattler, E. J. Baker, L. W. Jennings and Ed. Dean.

FORMER RESIDENT DIES IN S. F. SATURDAY

Many Nevada City folk will be grieved to learn of the death of Marion Walling Saturday night in San Francisco. The deceased was about 58 years of age and was born and raised in Nevada City. He had moved to San Francisco about two years ago.

The body will arrive on tonight's train i nthis city, accompanied by relatives. The funeral will be held from the Holmes Funeral Home at ten o'clock tomorrow morning. Burial will be at the Pine Grove Cemetery ofthis city.

Grass Valley Man Hurt In Roseville Last Night

Walter Parsons of Grass Valley was the victim of an automobile accident last night in Roseville in which his arm was broken in two places. The accident happened about six o'clock and the Holmes-Hooper ambulance was sent soon after to bring him back to the Jones Memorial hospital in Grass Valley.

Parsons is an automobile insurance man from the farm bureau and lives on Banner road out from Grass Valley.

Kimball Anderson, son of Mrs. James Erway, fell and cut his finger Thursday and was treated by Dr. W. W. Reed. Several stitches were necessary to close the wound.

There is a difference in the -

QUALITY

of printing the same as there is in everything else. It takes a certain combination to produce quality -

PRINTING

and that combination is not always found. There are many printers who have the type and machinery, but they are lacking in training or taste. The real craftsman uses type, paper and ink the same as an artist uses his materials. The finished job is either good or bad, depending principally on the ability of the person doing the work. It -

PAYS

to use quality printing, and as a rule it costs no more. It takes just as long to produce a sloppy job as it does a nice job. Try the -

Nevada City Nugget

for your next printing job, and find out that you can buy QUALITY PRINTING for a reasonable price right here in your home town.
